

# May Jesus Reign In America

## *Verse*

Jesus we welcome You to be Our King  
with all Your heavenly graces to us bring  
weary of Satan's usurpation of Your throne  
We want to worship You and You alone.

## *Chorus*

May Jesus reign, May Jesus Reign in America!  
In city streets and country field.  
Yes high and low, rich and poor in America!  
May every soul humbly bow  
and every knee and heart yield.

## *Verse*

So shall the brutes of city jungles thus be tamed  
By university professors innocent consciences no more  
be maimed.  
Judges and lawyers will again true justice seek  
and government will protect unborn  
lift up the poor and weak.

## *Verse*

No more the pagan stray from Jesus call  
No more the atheist our dear faith maul.  
No more confusion and darkness of mind  
Jesus, come and heal and save the sick and blind.

## *Verse*

No more the church following the world's ways  
No more theologians in a daze  
Let your voice ring out with signal loud and clear  
that we hold fast to what you hold dear!

## *Verse*

And so shall prejudicial hearts no more be hard  
No more God's image in us be marred  
No more our land's be filled with crime and hate  
Lord Jesus, indeed come soon  
we on your kingdom wait!

## *Verse*

And so the multitudes brought here from far and wide  
as one nation in Christ in peace abide  
and blessed of Thee to all the world a blessing be  
Oh Jesus! come and rule and make us truly free!
