

Our healer now redeemeth

Verse

Our healer now redeemeth
Our saviour and our King,
His shining light, it gleameth
The heav'nly gift He brings,
Our God is great and glorious
Redeems us from all ill
The sacred host He brings us
To feed our souls and fill

Verse

He cures all forms of illness
He heals the poor and sick
Our medicine, his fullness
The healing's swift and quick
His blood is our transfusion
His body is our bread,
Our healer and liaison
By whom the flock is led

Verse

He pours the oil of healing,
Upon our flesh and soul,
His spirit gently sealing,
And making broken whole,
His mercy flows upon us,
With chris'm's sacred grace,
In Christ we place our trust
To shine bright on our face.

Verse

O praise the heavenly father,
O praise the son and ghost.
His faithful people gather
To glorify and boast,
The source of all Earth's greatness
The maker of all good,
His love is great and endless
Our sacred brotherhood
